

NOSTIA

Where the Trip Leaves the Group Chat

Olaf Woodall · Will Chadwick

The Problem

People want to connect in real life. Every tool fights them on it.

Fragmented tools

Venmo for splitting costs, WhatsApp for group chats, Google Maps for planning, and Eventbrite for events—none of them talk to each other.

"Someday" trips never happen

Group chats are full of unacted plans. There's no tool that takes a conversation from idea to booked, funded trip.

Friends are everywhere; visits aren't

People have friends in fascinating places they genuinely want to see—but no easy way to organize stays, coordinate timing, or discover who's nearby.

The Solution

One app for your entire social life—payments, trips, events, and the people you actually want to see.

**Friend & Stay
Coordination**

**Trip Planning
& Vault**

**Events &
Discovery**

**Social
Experience**

"Nostia"—from the Latin for "ours." Built on the belief that shared experiences are the foundation of real connection.

The Product

Beta / MVP ready

Friend Integration

Add friends, coordinate stays, and plan visits in an organized, meaningful way. Mark your home as "open" to hosting.

Social Experience

A built-in social layer—share moments in an authentic style reminiscent of early Instagram. Host and discover events.

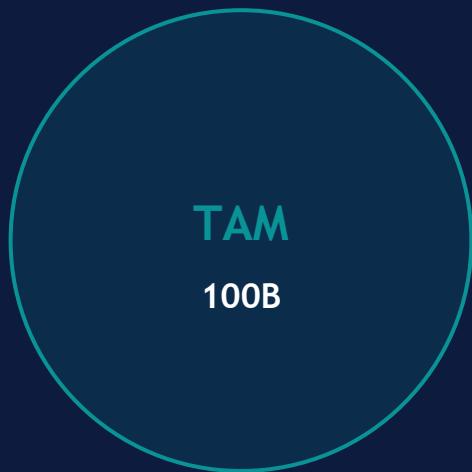

Trip Planning & Vault

Create shared itineraries, assign a trip leader, and pool group funds securely in the Nostia Trip Vault.

Adventure Discovery

Find others nearby looking for travel companions or local adventures. Share photos and stories from experiences.

Market Opportunity

Social, travel & fintech apps

English-speaking mobile users
aged 18–40 with travel intent

Early adopter cities & college
campus launch markets

**Market size estimates to be validated with sourced data prior to investor presentation.*

Business Model

Promoted Events & Ads

Local businesses, venues, and brands pay to surface events and experiences to relevant users based on location and social graph.

Brand Partnerships

Travel brands, hospitality partners, and lifestyle companies sponsor experiences, trip features, and curated adventure content within the app.

Premium Subscriptions

[Future revenue stream] Enhanced Trip Vault features, priority discovery, and expanded hosting tools for power users. Pricing TBD.

Traction & Milestones

Pre-launch—Beta / MVP complete

Go-To-Market

Phase 1—Seed

Q2 2026

- Invite-only beta on select college campuses
- Referral-driven growth within tight social networks
- Gather UX feedback, iterate rapidly

Phase 2—Ignite

Q3-Q4 2026

- Expand to 3–5 target cities with high travel affinity
- Influencer seeding with authentic travel creators
- Event-based activations to drive local density

Phase 3—Scale

2027

- National launch with brand partnership integrations
- Paid acquisition once unit economics are validated
- International expansion in English-speaking markets

The Team

Olaf Woodall

Co-Founder

I am a driven individual driven by a dream of improving humanity via the invention, investment, and improvement of current technology. I have expertise in leadership, ML development, marketing, full stack development. In my free time I like to hike and ski.

Will Chadwick

Co-Founder

I'm Will. I am a motivated and ambitious person with a lot of goals to create and innovate in the new age of artificial intelligence and the internet. I have experience in leadership and creative thinking along with networking skills that I hope to continue to deploy working with Nostia to create a product that can help shape the future of travel and planning. In my free time I like to ski and go on adventures.

The Ask

\$56,000-\$73,000
